

SUPPLEMENTARY TABLE 1.— Genera of Asterophryinae and their type species.

Genus	Type species
<i>Asterophrys</i>	<i>Asterophrys turpicola</i> Schlegel 1837
<i>Auparoparo</i>	<i>Auparoparo penelopeia</i> Kraus 2016
<i>Austrochaperina</i> *	<i>Austrochaperina palmipes</i> Zweifel 1956
<i>Austrochaperina</i> *	<i>Austrochaperina robusta</i> Fry 1912
<i>Barygenys</i>	<i>Barygenys cheesmanae</i> Parker 1936
<i>Callulops</i>	<i>Callulops doriae</i> Boulenger 1888
<i>Choerophryne</i>	<i>Choerophryne proboscidea</i> Van Kampen 1914
<i>Cophixalus</i>	<i>Cophixalus verrucosus</i> Boettger 1892
<i>Copiula</i>	<i>Copiula oxyrhina</i> Boulenger 1898
<i>Genyophryne</i> *	<i>Genyophryne thomsoni</i> Boulenger, 1890
<i>Hylophorbus</i>	<i>Hylophorbus rufescens</i> Macleay 1878
<i>Mantophryne</i>	<i>Mantophryne lateralis</i> Boulenger 1897
<i>Liophryne</i> *	<i>Liophryne rhododactyla</i> Boulenger 1897
<i>Oreophryne</i>	<i>Oreophryne senckenbergiana</i> Boettger 1895
<i>Oxydactyla</i>	<i>Oxydactyla brevicrus</i> Van Kampen 1913
<i>Paedophryne</i>	<i>Paedophryne kathismaphlox</i> Kraus 2010
<i>Sphenophryne</i> *	<i>Sphenophryne cornuta</i> Peters and Doria 1878
<i>Xenorhina</i>	<i>Xenorhina oxycephala</i> Schlegel 1858

*We note that the monophyly of *Austrochaperina*, *Liophryne*, *Oxydactyla*, and *Sphenophryne* (and reciprocal monophyly of *Genyophryne* [*Genyophryne thomsoni* Boulenger, 1890] with respect to *Liophryne* + *Oxydactyla* + *Sphenophryne*) has not yet been established.
